

AN UNOPENED
DOOR...

NEVER CLOSES

A door that opens will ALWAYS close. Inversely, no door stays unopened. At GRASS, we've made it our business to make sure that process continues. The purity of purpose remains our diligent endeavor. GRASS believes that every open door deserves proper closure as well. Throughout the life of every piece of fine furniture and cabinetry we remain to be the source of it's movement again and again. **TIOMOS** is built to achieve repeated performance with extreme precision and confidence. With a variety of opening angles, integrated soft-closing functions and 3D adjustability **TIOMOS** goes beyond "Open and Close".
